

Volvo Car U.S. LLC: Statement on Replacement of Tires

Volvo Car USA does not approve the use of any tire not recommended by Volvo Car. Using tires not recommended by Volvo may result in loss of vehicle control and injury or death to passengers. A list of approved Volvo tires can be found here:

Using only genuine Volvo parts will help ensure vehicle safety, performance, and residual value.

Volvo genuine parts are designed and manufactured to exact specifications to help maximize safety, performance, and reliability.

All Volvo exterior paneling, glass, unibody components, drivetrain, electronics, suspension SRS and steering components are essential to safe control of the vehicle. These parts are designed to work with other vehicle components to help keep occupants safe in an accident.

In the event of a collision, Volvo Car USA recommends that all repairs are performed by a Volvo Certified Technician through a Volvo Certified Collision Center using only genuine Volvo Car parts.

Always refer to Volvo Information and Diagnostics for Aftersales (VIDA) for the latest technical guidelines.
